Final Project Report

CS2111 Final Project Summary

__INSTRUCTIONS:__ Type out your answer directly below each question. If a question does not apply to your project, type in N/A. When finished, save this file as a PDF and upload it to the Blackboard.

__BASICS__

Your group members?

Sarah Alshumayri S20106125

Reema Abdullah   S20106463

Refan Algannas   S21107023

What is the topic of your final project?

Veterinary clinic website.

Who is the intended audience?

Our intended audience for the website is people with pets like dogs, and cats ...etc.

Provide a brief summary of the functionalities of your project.

In our website when you visit the home page, we have a navbar with five options to choose from Home, about us, services, login and contact us. The Home page is available for all clients to access and when you scroll down you will see some services as well as the staff, each one of them has a button that leads you to page that provide more information. In section "why choosing us" there will be a button to lead the clients to book an appointment the appointment will be scheduled and saved in a database table called "appointment," which contains the client's name, email, number, and the service that the client wants. Finally, client testimonials. Staff can log in into the page which can view the appointment information and insert, edit, or delete the information. On the other hand, the reception can view the appointments data and delete appointments attended by the pet's owner.

__FRONT-END__

What is the total page count?

Total 16 pages

Front-End :4 pages HTML, 5pages PHP, 2 pages CSS

Back-End: 5 pages PHP

Final Project Report

List the names of any external stylesheet used in this project below.

1-style.css

2-style_2.css
